PUT YOUR TEA AND COFFEE INTO THE FIGHT!

SHIPS AND LIVES must be conserved . . . so Tea, Coffee, Sugar are now on the honour ration system in Canada.

Suppose all the housewives across the Dominion put the money they save on Tea, Coffee and Sugar into buying War Sayings Stamps . . .

That would mean making this money do double duty. Think how many planes, ships, tanks and guns that money would buy to stop submarine sinkings, to help win the war, to bring back peace!

And think how useful that money would be to you when the boys come home — \$5.00 for every \$4.00 you lend! Buy War Savings Stamps every day, every week. When the war is over, have something EXTRA to buy the things you've gone without today!

Buy them from any Bank, Post Office, Druggist, Grocer or other retail store. uy as many War Sacings Stamp as you can - every day, every week.

Borrowing TO SAVE MONEY

In our country's present war economy, saving is the favourite financial watchword.

Save to be able to pay taxes when due, save to buy Victory Bonds, save to buy things for cash, save to be ready for unforeseen expenses—and yet there may be times when borrowing is necessary.

You may be in circumstances where bo Bank will actually save you

money by preventing losses. Or you may be in a position where borrowing is neces-sary, regardless of your desire

If you need to borrow, bring your problem to our nearest branch manager, who will reprivate and confidential.

AND MARKING CHIEF THE STITLE PT CAN BUIL DOWN ANY CRAFFACTOAT AND BLAST IT WITH TORPIDOES

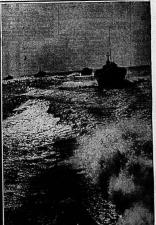

Surprise is a prime weepon of the PT's, so special signal flags like those above take the place of tell-tale radio blurts when an attack is under way. Trained as a team, the eight-man crew slips up on the target, sends a torpedo crashing frome and then sig-zags away.

When the sea is caim the PT boys eat warm food in style, served by a Filipino mess boy. When the going's rough—which, alas, is mostly always—they munch cold sandwiches, drink hot coffee. At 80 m.p.h. dishes have an annoying way of jitterbugging into your lap.

The water's cold, and, brother, the wind's colder on those tiny sea scorpions. All members of the crew wear special fur-lined helmets and goggles. This gob looks like an owl but feels anug as a bug. The cold dozen't scare anybody away. There's a waiting list of 1,000.

Scooling along on top of the waves, the squadron can turn on a dime, execute maneuvers so fast that enemy gunners get dixty spinning around in their turrets. The PT's have such a shallow draft—5 feet—that they can skim over mine fields and torpedoes

You will get best results both in quality and quantity if you carefully follow these simple directions:

- L Scald out the teapot to warm it.
- 2. Use a level teaspoon of tea for each cup of tea to be served.
- 3. Use the exact amount of FRESH water you require and see that it is BOILING FURIOUSLY before you pour it into the pot.

"DOSING" CONSTIPATION

TRY ALL-BRAN INSTEAD OF HARSH PURGATIVES

AVOID

Take this BETTER WAY to get at trouble caused by lack of "bulk"

Instead of using harsh purgatives, why not take the "better way" to correct the cause of the common type of constipation due to lack of the right kind of "bulk" in the diet? KELLOGG'S ALL-BRAN, a crisp, crunchy cereal, supplies the necessary "bulk" . . . tastes grand with sugar and cream or in hot muffins.

Eat ALL-BRAN every day and drink plenty of water. But, remember, ALL-BRAN doesn't work like purgatives. It takes time. Get ALL-BRAN at your grocer's, in two convenient sizes; or in indi-vidual serving packages at restaurants. Made by Kellogg's in London, Canada.

ANNOUNCEMENT

THE GIFT SCHEME

Pearl, Comfort, Surprise Soaps and Handy Ammonia Powder

WILL BE DISCONTINUED ON JULY 31st, 1942

Because of the War, because of the difficulties of obtaining supplies of gifts, and most important of all, the visil need to conserve metals, neutralis and manpower for the manufacture of essential war goods, it has been decided in the National interest to discontinue the Citi Scheme. As concespence, we ergest to inform the public that the Citi Scheme will be withdrawn on July Sin, 1984, and after that show no PEARL, OMPORT or SURFINES SOAF, or HANDY AMMONIA POWDER coopens can be exchanged for gift.

As soon as we are able to obtain supplies of new packaging material, these products will be sold in wrappers and cartons without the Gitt Coupons, and such wrappers will not be exchangeable for gits.

It may still be possible, however, to buy Pearl, Comfort and Surprise Soaps and Handy Ammonia Powder after July 31st, 1942, in packages bearing coupons. This cannot be svoided, but such coupons nevertheless cannot be scoepted after that date.

To obtain gifts, coupons must be mailed before July 31st, 1942, to-

TIRES J.B.BOYCE

SERVICE

Secrifice? Who has asked you to wade to work through snowdrifts with your feet wrapped in rang? Who has asked you to work a 16-hour day for less shane enough to eat? Has your wife stood in a bread line for hours . . . to be told that there was no more food? Have your children esten grass because there was no milk?

No . . . you're only been asked to drive at 40 instead of 65 ... so tires will last 2½; times as long. To have the common-seens mechanical adjustments made that will save you fuel and 5il . To make certain—as you never have before—that every wearing part, every mile you drive, has the vital lubrication needed to prolong its life.

A MERICA MUST HAVE transportation. And must get it from its present cars. There'll be no more new ones for the duration. Long ago, the whole automobile industry rolled up its sleeves to make planes and tanks and shells and gous for freedom's armies.

That task must not be interrupted! Not interrupted, above all, to divert precious time and material to repair parts that only neglect made necessary!

DO THESE THINGS TO SAFEGUARD YOUR CAR.

Don't saste guileage! Limit your driving to essential transportation. If you must drive to work, take others—and rotate trips with them.

Check tire pressure once a week—wheel alignment at regular intervals—to avoid needless tire wear. Drive as lower speeds —make tires, gas and oil go farther.

Give your oar ample lubrication. Whether you prefer Alemite lubricants or others—get them and get them regularly. Don't chest on mileage between lubrications.

Watch brake and clutch adjustments—steering gear, play—head and tail lamps. Don't let your car become dangerous for lack of simple care.

Fill battery—shock absorbers—radiator brake fluid reservoir—as needed. Don't let lock of water or oil cause expensive damage.

This resurge is policited solely in the interest of specifing victors. We have no ance us gried ... our machines have been conserved to the making of cuential materials for war and war production. We look forward up the day when we may repreciations used again. Here some that will be not incompletely income power will not all ones. The many one that will be not be completely not of leastly.

WHEN GOOD EYESIGHT IS SO VERY IMPORTANT ...

First step in producing a new stamp is modelling. The artist is preparing design for the 6-cent airmail stamp for which he used four photos made at an R.C.A.F. station for Department of Public Information. Border and lettering are shand done.

This girl, operating a perforating machine, watches both sides of operation by using a mirror, guarding against a pile-up as sheets round corner for horizontal perforation.

The skilled engraver is cutting the original postage stamp did on soft steel. It is then approved by Hon. W. P. Mullock, Postmaster General, before being bardened. The impression is transferred to a soft steel cylinder, then to printing plate:

Combining four photographs, this 6-cent airmail stamp records work of the British Commonwealth Air Training Plan in Canada. Scene is typical of R.C.A.F. stations.

The dark green, 13-cent denomination is a composite, based on photos, showing the Ram tank used by Canada's Army. Tank was named after the Rocky Mountain ram.

The farm scene in the sepis 8-cent stamp (left) is a tribute to the war effort of the farmer who operates on a small scale. Portraits of the King in uniforms of the three services appear on the one-cent (centre) two, three and five-cent stamps. Canada's war contribution in shipping is pictured in the 4-cent stamp (right).

mphasizing the contribution of smaller shipyards in milding Royal Canadian Navy and murchant vessels, the been stamp shows a convette ready to be launched.

The woman is checking proof sheet for flaws while the man marks the soft steel plate for corrections. After each impression has been approved the plate is case-

An excellent example of fine detail in stamp-making, the 50-cent denomination shows a 25-pounder field gun against the background of a Canadian munitions plant.

Destroyers of the Tribal Class, as portrayed on the \$1 blue stamp, are being built in Canada and Britain for Canada's Navy. They will be named after Indian tribes.

Mass production of heavy guns, already an accomplished fact, is one of Canada's most amazing was achievements.

In a scant two years new factories have been built, machine tools manufactured and installed, green hands trained—a whole

installed, green hands trained—a whole industry caracted.

To-day Canada is producing in quantity ten different types of heavy guns, complete with all mountings and equipment, ready to fire. One Canadian factory, manufacturing are. One Canadam intony, artillery from'scrap to complete gun, equals in size any similar plant in the world. One of the largest automatic gun plants in existence is located in Canada.

Production schedules for 1942 call for more than 400 anti-sircraft guns a month; 500 field guns a month; 150 naval guns a month, and over 1,000 extra barrels a month:

A Young Man's Game

"They tell me it is a young man's game," said Hank Sawyer, hired map to the highest bidder. "They won't take me."

Mr. Picobac extended his handy Picobac pouch, filled to the brim with the sweetest-smelling tobacco in the world—to noses that know their Canadian Burley.

"Have a mild . . . 'cool . . . sweet smoke, Hank," said he consolingly.

"I can hit a crow with a rifle — on the wing; I've done it," said Hank, helping himself.
"Lucky abot," said Mr. Picobac kindly. "Look—could you figure the elevation of a gun ranged at four miles? No; nor me, neither, and we're too old to learn now." "Too old nothin'! Speak for yourself," said puffing at his pipe in rare enjoyment, "I ain't."

Why, Hello, Corporal—come right in! No, I don't mind a bit— Just hang your coat up and come here, Sit down and watch me knit.

What's this? A sweater for a man, THE man, if you must know, That is he was before the draft— But that seems years ago!

His hair is wavy, just like yours, His eyes are darkest blue. And when he smiles—well, do yo He looks a lot like you! well, do you know

My fingers seem to be all thumbs,
My heart is beating so—
Will I marry you! Why, you!
Just let me end this row!

THERE'S A BETTER QUAKER FEED FOR EVERY NEED ...

172 FRONT STREET

 Since feed plays such an important part in any farmers' net profits, we con-aidered it our job, years ago, to main-tainezperimental farms where Quaker Feeds and different new ideas might be tried and tested under actual farm conditions. We are constantly seek-ing ways to improve Quaker Feeds so that you will get more efficient results and at the same time cut your feed-ing costs considerably. We feel confident that Quaker Feeds are the most profitable and economical feeds on the market today.

IT MIGHT BE WORSE

Government conservationists suggesthat men give up pyjamas and return old-time night shirts.—News Item.

How dear to his heart was The old-fashioned night shirt, The long-cherished garment . That grandfather knew, The roomy, the floppy,
The never too tight shirt
Which caused him no bother,
However askow.

At times it was maybe
A little bit breezy
But, oh, in the summer
It let in the air.
Unstrung and unrubbered,
"Twas slumber made gasy.
So shapeless, so baggy,
So comfy to wear!

It wasn't a marvel Of hue or of beauty, And yet, when one rose, Would strictly adhere To modesty's lines in To modesty's lines in Performing its duty,
And when it dropped down, there
Was nothing to fear.

—Boston Herald.

Maybe you think your small change cannot help: 18 that "total war" means "somebody else."

Maybe you're one of the thousands of he who haven't yet started to put even 50¢ a week into War Savings Stampe—just a neutral : : :

There aren't any neutrals in this war! You're a help or a hindrane to victory. You can't get out of it. If you spend thoughtlessly you'll deay our fighting forces the arms they need and imperil your own future. If you—and 2,000,000 other housewives in Canada put only 50¢ a week into War Savings Stamps, it means \$1,000,000 a week to help win the war. Which side are you on?

To Any New Ideas

WELL, THERE ARE several reasons: In the first place, in order to conserve tires and gasoline, we found it necessary to eliminate all deliveries except to our regular Borden Ice Cream Dealers and even to them regular nortes in extended that an overst own our delivery has been considerably curtailed. Through the co-operation of our Ice Cream Dealers in accepting this reduced delivers service and the saving in mileage on special deliveries, many thousands of gallons of gasoline will be saved for vital war uses:

Secondly, in order to conserve sugar and dairy products, our Government has placed certain definite limitations on the amount of Ice Cream we can produce or sell. This means there is not enough Ice Cream to meet even the requirements of our established Borden Ice Cream dealers and they are all obliged to operate on a "quota" basis. We believe you will agree that these store-keepers who have to depend on their sales of Ice Cream to help meet their current business obligations, pay taxes, and buy war bonds or war savings certificates should have first call on the limited amount of Ice Cream we are permitted to produce under war time conditions

So for the duration, we will simply have to say, "Sorry, our Ice Gream is all allotted on a rationed basis to our Ice Cream Dealers: Our special order department is closed," and hope that you will understand and agree with us that we have made this decision in the interests of conservation of vital materials and to maintain as equitable a distribution of this fine food product as

3r. Schultz, whose lectures have been deligrent in hundred, or churches, among '44 different denominations, is definitely not one of those "high-pressure", would be prophetic techner whose habit is to make predictions which are proven to be mere "guesses." His is a thorough exposition of God's Word, coupled with a first-hand knowledge of Europe, Asia and Africa. Thus, he brings the light of Scripture to beer upon world events.

WHATEVER type of coffee-maker you use, follow these rules to prevent waste and to use coffee to best advantage.

1 Use good coffee - correctly ground for your method of coffee-making.

2 Measure ground coffee and water care-fully so as to provide just the number of cup-fuls you need and no more. Use freshly drawn

3 Make coffee at just below boiling point. Boiling develops bitterness and spoils flavor. Remove grounds as soon as coffee is made.

4 Serve immediately, if possible. If necessary to keep hot, use only loss heat.

5 Keep coffee maker scrupulously clean. Stale odors and sediment affect flavor. Pro-heat by scalding just before use.

Ships OUR CHALLENGE TO THE "U" BOAT

Canada started this war with virtually no active shipbilding industry. To-6xy there are 17 major and 18 smaller yards which, with subsidiary industries, employ 40,000 men. Canada's first 10,000 tonore, Juanched in October last year, completed its first Atlantic voyage in February! Since then many others have been launched and the present nonexagenative calls (or 17, 27, 2000). Canada started this war with virtually no many others have been issueched and the present programme calls for 172 new cargo ships costing \$325,000,000. Keels for over 50 have already been Isid. Before the year is our we will be launching a new ship every few days.

every few days.

Over 500 Canadian industries are making components for these ships. About 95% of the material used in their production is now "made in Canada."

Not included in these figures are some 200 navial ships already Jaunched, the large majority of them corvettes and minesweepers.

CHEMISTRY HELPS TO WIN THE WAR

"The Water Supply Was Cut By The Enemy"

WATER—good drinking water—is all important to the fighting man. Its importance has been demonstrated over and over again in this and in other wars. Remember how soon Hong Kong capitulated after the Japs captured the water supply?

For assured supplies of safe drinking water, modern armies depend on mobile water tanks accompanied by trucks especially equipped to disinfect water by chlorine treatment-on the spot.

In the plants of its Alkali Division, Canadian Industries Limited produces Chlorine for many purposes, important amongst which is its use to assure safe drinking water for the people of Canada and for their armies in the field.

> Chlorine is another of C-I-L's products of Industrial Chemistry which are aiding Canada's war effort.

That rubber stamp means we can say Canada's cotton textile

industry is 11 times ahead of its war production records of 1914-18.

The industry is delivering about 215,000,000 yards a year of aircraft fabric, ammunition pouches, antigas cloth, camouflage netting, gun covers, parachute webbing, powder bags, uniform cloth, web equipment and other essential materials.

Dominion Textile is proud to have a part in this. We also wish to report that our plant employees are earning 28% more per hour than in 1939, and we pay 5.4 times more in taxes than the total paid in dividends to our several thousand shareholders.

PROCLAMATION CIVIC

TO THE ARMY SALUTE

WHEREAS, SUNDAY, JUNE 28, to SATURDAY, JULY 4th., has been designated as the week in which citizens of Belleville, in company with All Canada, will pay special honour and tribute to the members of the Canadian Army, the individual days being as follows:

GREATER BELLEVILLE DAY (WEDNES-DAY, JULY 1): ARMY CHURCH DAY (SUNDAY, JULY 5).

AND WHEREAS, a large and active Civilian Committee under the general chairmanship of Ald. E. O. Butler, of the Greater Belleville War Services Advisory Council, his been organized to make suitable arrangements to this end:

THEREFORE, I CALL UPON all Citizens to support Army Week; to have their homes and places of business decorated as atttractively as possible with flags and bunting; to extend their hospitality in every possible way to the members of the Army; to pay particular tribute and deference to the next of kin, to attend as many as possible of the important functions arranged for Army Week;

AND I ASK ALL CITIZENS who have practical suggestions to contribute for the most successful observ-ance of Army Week to telephone or write the Army Week Headquarters.

Canada has shown that she is able to take her place economically and in every other way in supporting the United Nations.

'In Action Far From Home'

Lewis Crommelin Massefield, only son of John Massefield, British poet laureate, was "killed in action far from home in recent fightling" according to a dispatch from London and the New York Times speaks with great sympathy of the bereaved poet who has so finely touched the chords and mysteries of life. The Times quotes words written by John Masefield:

Where the young langht the sheen squaders. That young knight was his soon and the Times says, "we do not know where the young knight's equadron make its last atand but we know in what cause. Out of John Massfelid's noble and compassionate words many men, many young passionate words many men, many young beautiful to the words of the passionate words many men, many young battering the more many the mourn with him, everywhere, for the tattered battailons and the knightly dead, for whom victory was only a faraway dawn without the words of the passion of modern English literature should the Germans, Kpiling's son giving his life in the First World War.

You'll never be satisfied with anything else once you see RINSO WHITENESS

WHEN you see clothes which have been washed with Rinso ▼ ▼ have been washed with Rinao you quickly appreciate the difference ::: Rinso not only washes whiter, it gives the whitest wash! In fact you'll say the only real standard of whiteness is Rinso whiteness:

Colors wash best in Rinso; t Colors wasn bert in Rinso; too.

We after week you'll see that they come up bright and fresh as daisies. Rinso actually helps all the clothes to wear longer. Its rich suds float away dirt, make it unnecessary to Whatever your previous washing experience has been you have only to use Rinso once and you will never again be satisfied with anything else for your wash.

Order some Rinso for this coming vashday. Get the GIANT package at your store for extra economy.

CIVIC PROCLAMATION

TO THE ARMY SALUTE

WHEREAS, MONDAY, JUNE 29, to SUNDAY JULY 5th., has been designated as the week in which citizens of Belleville, in company with All Canada, will pay special honour and tribute to the members of the Canadian Army, the individual days being as follows:

GREATER BELLEVILLE DAY (WEDNES-DAY, JULY 1); ARMY CHURCH DAY (SUNDAY, JULY 5).

'AND WHEREAS, a large and active Civilian Committee under the general chairmanship of Ald. E. O. Butler, of the Greater Belleville War Services Advisory Council, his been organized to make suitable arrangements to this end:

THEREFORE, I CALL UPON all Citizens to support Army Week; to have their homes and places of business decorated as atttractively as possible with flags and bunting; to extend their hospitality in every possible way to the members of the Army; to pay particular tribute and deference to the next of kin, to attend . as many as possible of the important functions arranged for Army Week;

AND I ASK ALL CITIZENS who have practical suggestions to contribute for the most successful observance of Army Week to telephone or write the Army Week Headquarters.

MAIL YOUR APPLICATION CARD FOR COUPON RATIONING AT ONCE!

After July 1st no one will be able to purchase sugar for regular domestic use without turning in a ration coupon.

Application cards for coupon rationing for sugar have now been mailed to every household in Canada. In cities where there is a letter carrier service, these cards should have been picked up yesterday by a volunteer representative of the Wartime Prices and Trade Board. But, in an undertaking so vast, some homes may have been missed, or some cards may have gone astray. So, no matter where you live, whether it is in areas served by letter carrier or not, if your application card is not already on its way to Rationing Headquarters, you should wait no longer. After filling in the card, according to the instructions on the pamphlet which was delivered with it, just drop the card in the nearest mail box or post office. It needs no forwarding address.

IF YOU HAVE NOT RECEIVED AN APPLICATION CARD you should get one at the nearest Post Office at once.

> The ration cards being issued for use July 1st are for sugar only, and good for 10 weeks. At the end of that period a coupon

ration book good for 6 months will be issued. Under the new system of coupon rationing, you are allowed the same

amount of sugar as at present-1/2 lb. per person per week. The same provision as at present for

additional quantities for preserving and jam and jelly making will be continued. Special voucher forms for this purpose are being supplied all retailers.

All Past Offices have recrived full instructions to rush application cards for coupon rationing to the nearest Wartime Prices and Trade Board Office, where they will get immediate attention and the coupon ration cards mailed right back to you.

OPTOMETRIST,

CIVIC PROCLAMATION

T₀ THE ARMY

WHEREAS, MONDAY, JUNE 29, to SUNDAY JULY 5th., has been designated as the week in which citizens of Belleville, in company with All Canada, will pay special honour and tribute to the members of the Canadian Army, the individual days being as follows:

GREATER BELLEVILLE DAY (WEDNES-DAY, JULY 1); ARMY CHURCH DAY (SUNDAY, JULY 5).

AND WHEREAS, a large and active Civilian Committee under the general chairmanship of Ald. E. O. Butler, of the Greater Belleville War Services Advisory Council, his been organized to make suitable arrangements to this end:

THEREFORE, I CALL UPON all Citizens to support Army Week; to have their homes and places of business decorated as atttractively as possible with flags and bunting; to extend their hospitality in every possible way to the members of the Army; to pay particular tribute and deference to the next of kin, to attend as many as possible of the important functions arranged for Army Week;

AND I ASK ALL CITIZENS who have practical suggestions to contribute for the most successful observance of Army Week to telephone or write the Army Week Headquarters.

You Can Use CERTO

BECAUSE CERTO IS FRUIT PECTIN, you can use it and conform with the Wartime Prices and Trade Board Order No. 150 which states:

"No Sugar shall be purchased or used by a consumer for making any jam or jelly in excess of three-quarters of a pound of sugar for each pound of fruit, or in excess of one and one-quarter pounds of sugar for each pound of fruit if pectin is used in the making of such jam or jelly."

On the basis that "fruit" means the weight of "unprepared" fruit, then you are entitled to purchase sugar to make your jams and jellies the Certo way, which gives you approximately two-thirds more jam or jelly from the fruit used.
